Gon

Side table with solid oak shelves

New to the family: the Gon table by Jakub Pollág. Gon (as in poly-gon), perfectly suits any space be it the bedroom, living room or home office. With its two available sizes and four colour ways, you can be sure your pile of magazines will look like an expensive pile of magazines; your general clutter elevated to an overall impression of a life well-curated. Built from bent, powder-coated metal and solid oiled oak, it's robust, attractive, guaranteed to age well, and we love it. Available in black, off-white, dark green, and red.

Sizes: 305 x 495 x 481 mm

Material: powder coated steel, solid oak

Design: Jakub Pollág

Available colors:

RAL 1015 Ivory white

RAL 9005 Jet black
