Roxor Bistro Table

Bistro table

The Roxor bistro table is suitable for both indoor and outdoor use. It is made of powder-coated or galvanized steel. Its central base is constructed from rods that are used as reinforcement for concrete. The table features a top made from recycled plastic. This table is available in two different colors and sizes, but we would be happy to create them in a different color scheme for your bistro. In addition to tables, the Roxor collection also includes chairs and barstools, making it suitable for commercial and restaurant establishments as well.
