

Wall Shelf One

Wall shelf

With our Wall Shelf One, an empty wall is instantly transformed into an exclusive display space for your collection of books and charms. With different sizes and a variety of finishes, endless variations can be created. The construction of the support frames is handmade from steel and the shelf parts are made from plywood.

The shelf parts are made of plywood which is a solid wood glued in layers that is strong and stable. Thanks to its structure, plywood has a high load-bearing capacity and is very resistant to stress, making it ideal for making furniture that has a long life.

Wall Shelf One is available in several finishes: if your interior is already full of colors, choose classic white, bleached or sophisticated brushed black wood. If you're looking for something more extravagant, go for the Camo pattern.

Design:
Tomáš Varga

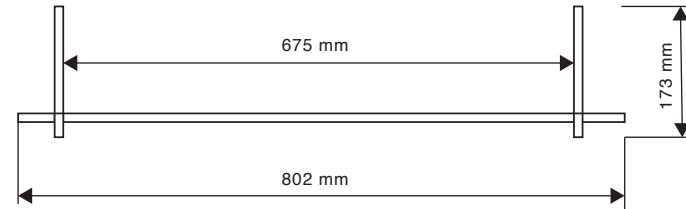

Dimensions:
h173 x w802 x d290 mm
h173 x w1490 x d290 mm
h364 x w802 x d290 mm
h364 x w1490 x d290 mm
